(Associated Press)
Rushfield, Ore., Sept. 15 — The
burned-out hulk of the Pacific Coast
Steamship company's liner Congress
was anchored today, following the
fire which caused the vessel to race
for this port last night.

Every one of the 253 passengers
and crew was landed safely last night
by the dredge Col. Kichie. The crew,
several of whom were temporarily
overcome by the smoke, fought the
fire to the last moment before leaving,
and are loudly praised by the pas-
sengers.

The loss is \$2,100,000, including
the ship's valuables which were val-
ued at \$52,000 and a cargo of \$50,-
000. The fire, which was of myster-

steamer Congress, afire in its hold
and enveloped in huge clouds of
smoke, anchored near the entrance of
Coos Bay just before 6 o'clock at

be made to transfer them to the bar

from the vessel. Efforts are being
made to send out other steamers be-
side the Yellowstone.

Albert Westphal, Rochelle,
Slugged And Robbed Here
Thursday Eve

An old man, who gave his name as
Albert Westphal and residence as Ro-

Westphal, according to the police,
had been drinking and picked up an
acquaintance with the young fellow

to the Northwestern station. He al-

the fellow knocked him unconscious
and robbed him.

The police were called and render-

was sent home. The officers have a
good clue and an arrest may be ex-
pected.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice. It will be confidential.

HOW TO BE A DRESSMAKER

Learn to say "next Tuesday," and mean heaven knows when; to say "next Tuesday sure," and mean on Thursday week; to say "next Tuesday positively," and mean on Saturday night, and to say "next Tuesday without fail," and mean that if the customer calls for it Friday afternoon at about quitting time, she can have the gown if she will pull out the basting threads herself and put the shields in and bring it back Saturday and wait two hours to have it refitted and fixed the way she had told you all along to make it.

Having thus acquired this putoffability, the rest is easy.

I have known dressmakers who did not know a gusset from a russet or a seam from a dream or a gore from a whipsitch, yet who made much money through their ability to hire the right kind of seamstresses, throw the right kind of bluff and lie plausibly.

Learn to buy blue voile and declaim it till it looks like four dollars a yard; to make two dollars' worth of trimmings and two dollars' and a half worth of work look like \$500 on a twelve dollar woman.

Impress upon some long-tongued, idle woman that there is a "certain something" about your style and workmanship, and you can't get a bankbook too soon. Andrew Carnegie will envy your poverty no more. You will learn to cut coupons on the bias, and can show more independence than the owner of the only chunk of ice in hades.

If you can only get two or three women to promise to keep secret the place where they get such a stylish gown—just to keep it more exclusive. Don't you know—that is another easy and short way to fortune. It would amount to a combination in restraint of trade, to work both schemes I have laid down. Don't be a hoggess.

Learn to class your hands and faint with a smile of "I don't care what becomes of me now" bliss on your face after fastening a tight gown on a woman who bears a strong family resemblance to the southern exposure of a northbound hack, saying gurglingly with your last conscious breath "How positively ex-quizzitely svelt."

If the wide lady has money you may go to Europe the following week.

They like the "con." I don't know why; but I am dealing with facts, not logic.

SUNDAY'S GAME WITH OREGON SHOULD DRAW VISITORS WILL PRESENT STRONG LINE-UP—DIXON WILL BE STRONGER.

If the weather man behaves himself and turns on a little heat between now and Sunday, Dixon fans will be given an afternoon of fun at the Lincoln park diamond when the local aggregation will meet the Oregon Mutuals. The Oregon team is one of the best in this section of the state and has defeated many fast semi-pro bunches. They will bring their best team to this city. The locals will also have a strong aggregation in the field with Hogan on short, Hodge on third, Lightner at second, Whitebread at first, Huber in the box and Schultz doing the receiving.

For Governor

FRANK O. LOWDEN

LANDERS UNBURDENED HIMSELF.

Zibe Landers, editor of the Ogle County Republican, published at Oregon, Ill., is as ardent and patriotic a Lowden republican as ever lived. The actions of the Anti-Saloon League and Scott McBride, its head, have aroused the righteous indignation of Mr. Landers and that gentleman, who is ordinarily a quiet, kindly, pleasant and reasonably pious gentleman, is mad clear through and shouting for battle. His paper says editorially:

"A friend in a neighboring town sends us a marked copy of the Illinois issue, the second weekly campaign issue of 'mud and slush' by the counterfeited reform organ of Charles Deneen, the sponsor for Hull's candidacy in the gubernatorial campaign. It is asserted—in order that Deneen could get action on Hull's bank account—to bolster up his wrecked political machine. Deneen owns McBride, and McBride pledged to deliver 100 per cent of the dry vote. We trust the 'issue' will not consider us impertinent. If we ask, why—and what was the editor's divvy?

"McBride accuses us of falsehood in our recent attention to his campaign methods. We are positive he is guilty of falsehood when he, according to newspaper reports, pledged to deliver to Hull 100 per cent of the dry vote. The facts are—he couldn't nor didn't deliver 20 per cent.

"Without the influence of the big, decent, well informed business men, such as the vast majority behind Col. Lowden, the Anti-Saloon League can never win another battle in Illinois. These little, narrow, three whiskered specimens of humanity who cannot vote until McBride or some \$500 a year Ohio democratic preacher O. K.'s their ballot, cannot go out into any intelligent community and cut any ice. Besides, it is essential that the League have the press with it. The press, of consequence, is weaned from McBride for all time.

"We are positively ashamed of a number of preachers of our acquaintance, especially of the Methodist denomination. We regret to learn that they are so devoid of horse sense as to open their church to a bunch of Deneen ward healers disguised as saints, to delude unsuspecting and well meaning people.

"McBride squirms, fishworm that he is, because of opposition to his rule or ruin policy. He takes a whirl at Judge Cartwright because the Judge had the nerve to call things (McBride) by its right name—'The Reverend Libeler of Good Men.' He also whines at the heels of some of the ablest ministers in Rock River Conference because of their refusal to take orders. Think of it—a well informed minister of the Gospel taking orders from a \$500 a year egotistic boss—McBride—if he votes for governor will probably vote for Dunne. He votes for his choice and assumes the authority of dictator concerning your vote. He tells people why they must vote for Hull—as cold blooded a proposition as ever came down the pike, who ducked in the state senate on the woman's suffrage bill—the passage of which (without Hull's assistance) made Oregon and hundreds of other Illinois towns dry.

"Thousands of northern Illinois men are done with McBride's League. No more collections from them. McBride must depend upon Hull and Deneen, four his \$6,000 a year hereafter—furthermore, we know a bunch of Methodist preachers that are out of joint with their memberships and might as well commence to pack their barrels of dead sermons and prepare to move to Indiana, and they have our permission to take McBride with them.

"For the edification of 'Fizzle' Scott McBride of the so-called Anti-Saloon League, who says in the second edition of his 'Deneen Weekly' that he only knows three or four preachers that are not against Lowden. We believe this assertion is a cold blooded lie—uttered by a man who is allowed to stand in the pulpits of Illinois and point us poor deluded mortals to better living. There are as many as he mentions in Oregon. Then there is Brush-

Ingham, Brewster, Mack, Stone, Sheels, Hudson, Simister, Moore, Horn, Hinds and dozens more. As ignorant as McBride paints the Republican editor—he would hesitate to attempt anything as bare-faced as the above."

A VICTORY FOR THE PEOPLE.

The wonderful victory for Col. Lowden in the republican primaries is a great victory for the republican party in Illinois as well. It assures a republican victory for Hughes in this state in November, and the next thing in order now is the election of Lowden for governor by a 200,000 majority.

Hull and Smith have both accepted defeat gracefully and have wired Col. Lowden of their allegiance to his cause. Lowden has said nothing in his campaign which will give any supporter of another candidate cause for sorrows. He will lead a united and harmonious party to victory in the general election November 7th.

Lee county did as the Evening Telegraph predicted it would, and gave Col. Lowden splendid support.

A TRIBUTE FROM LOWDEN'S NEIGHBORS.

Col. Lowden lives in Nashua township, Ogle county. Every citizen of that township who voted, and about every one of them did, cast his ballot for Col. Lowden. There was not one ballot cast for any candidate but Colonel Lowden in the entire township. Such a tribute comes to few men. Who of us stand so well with our neighbors that not one man could be found in a township to vote against us?

Governor Dunne, in his opening letter of the big gubernatorial campaign, makes use of the methods that helped to make the defeat of Hull and Smith so decisive. He attacks Col. Lowden. Keep it up, Governor.

It certainly looks as though nobody was for Frank O. Lowden but the people.

William Lorimer was defeated for congress, and property. Lorimer should not have been returned to congress. He is down and out, and it is nobody's fault but his own. He should have realized it earlier.

"BILLY" MASON IN "COMEBACK"

But "Billy" Lorimer Fails in Same Sort of Effort.

BARRAT O'HARA IS BEATEN

Race for Republican Nomination for Attorney General Is Neck and Neck O'Hara, as Lieutenant Governor, Figured in a Somewhat Famous Vice Crusade.

Chicago, Sept. 15.—The high spot in the aftermath of the state wide primaries is the yet undecided contest between Edward J. Brundage and Senator Richard J. Barr of Joliet for the Republican nomination for Attorney General. The result may not be known until the end of the week. Brundage cleaned up handsomely in Cook County, where final figures give him a plurality of 48,307. Downstate, however, Barr whipped Brundage to so nearly the same tune that incoming returns from the back country keep the pair on a see-saw.

"Billy" Mason in "Come-back." A second feature is the 'come-back' of Former Senator W. E. Mason. Of the nine entrants in the Republican congressman-at-large race Medill McCormick and William E. Mason led the field. The former polled a vote of 107,419 and the ex-senator 76,794. B. M. Chipperfield, who for some time was believed to have gained the nomination, settled into third place with 57,343 votes as the downstate returns began to come in. McCormick polled the highest vote in the city, county and downstate districts.

"Billy" Lorimer Beaten. Former United States Senator William Lorimer, who entered the Republican congressional race in the sixth district, in an effort to "come back," has been beaten. Complete returns

received show the voters of the old district, which, in the better days of the "Blond Boss," made him a national figure, rejected him. Though the candidate who beat Lorimer, former Alderman Arthur W. Fulton, ran only 1,597 votes ahead of him, this total does not represent the full anti-Lorimer sentiment.

Barrat O'Hara Beaten. Hardly less in general interest is the defeat of Barrat O'Hara for re-nomination for Lieutenant governor by the Democrats. O'Hara was the guiding spirit in the vice probe by a commission named by last legislature. Subsequently he himself became mixed up in a scandal at a Chicago hotel, and later in a series of suits begun in the courts by John B. Fergus was charged with gross misuse of funds, part of which were appropriated for his own commission.

Buchanan Wins Again. In the seventh, Congressman Frank Buchanan, labor leader and under indictment in connection with the pro-German propaganda cases, won a re-nomination by a close vote.

Only McDermott Unsated. In the Chicago districts all sitting representatives won re-nomination except James T. "Pipes" McDermott in the fourth—the stockyards—district.

After two years of war furs are becoming all more of a luxury. St. Paris says, "No more long coats!" And what Paris says goes. The tall velvet turban is also the latest model.

LABOR FEDERATION

SHOWS BIG GROWTH

Illinois Membership Increases Over Twenty Fold.

Springfield, Ill., Sept. 15.—The annual convention of Illinois State Federation of Labor, which meets in Quincy in October, perhaps will show a decided increase in the number of union men and women in Illinois since the last convention.

The association, in recent years, has shown a remarkable growth. In 1890, at the seventh annual convention of the federation held in Jacksonville, there were present only eleven delegates, representing 35,302 union men. At the last convention held in Alton, Oct. 18, 1915, there were present 596 delegates, representing 750,000 organized working men and women. It is said the membership is increasing more rapidly now than ever before.

During the last two and a half years the bricklayers' union, the railroad brotherhoods, the school teachers' organizations, state institution employ and the farmers' unions all have directly affiliated with the federation.

CLOCKS HAVE RHEUMATISM

SYMPTOMS AND AILMENTS RESEMBLE THOSE OF HUMAN BEINGS

OFTEN THEY NEED SPEEDING UP

Chronometer Surgeon of Quaker City Blames Weather for Time-pieces "Iills."

Philadelphia, Pa.—The rheumatic clock has been unearthed, its symptoms and ailments resemble those of the man whose bones ache and whose limbs refuse to perform the functions assigned to them without protesting and lagging.

In order to support this declaration it is necessary to introduce Charles G. Taney, veteran clock winder and chronometer surgeon, who looks after something like 500 wall clocks which mark time in the various offices of the Pennsylvania railroad, its subsidiary lines, its hundreds of offices, its ferry boat clocks, and the big tower clock at the foot of Market street.

Taney is 67 years old and for thirty years he has had entire charge of the clock department of that system, his territory including all of this city, Camden and several suburbs.

For thirty years he has been winding 500 clocks each week, doctoring them when they were sick, making new parts for them when the old ones were worn out, and otherwise keeping them up so as to save them from the scrap pile. With his little ladder and tool bag he has become a well-known figure, and fixture to every one of the thousands of employes of the Pennsylvania system.

"Clocks are like human beings," he says. "They get cranky with weather changes and have to be looked after. In wet weather they lag and have to be speeded up like the man with rheumatism. I have a number of clocks which have been in constant use for 40 years, 10 years longer than I have been looking after them. Their pinions are old fashioned, made of brass and they will partly wear out and need treatment. Their symptoms are like those of human beings."

"The big tower clock at the foot of Market street gets troublesome in wet and freezing weather. The hands freeze together and then we have to climb up and knock off the ice and loosen them so that they will move again."

Taney recently asked for and was given an assistant, whose name is Joseph A. Ballinger. And when Taney is eventually retired on a pension Ballinger will step into his duties and continue the ministrations to the timepieces which thousands of people daily scan.

Between them they have equipped a complete repair shop in the Broad street station building, where new parts of all kinds are either made or kept in stock. Taney takes particular pride in the fact that he once a week regulates the watches of the big men who rule the destinies of the various departments of the Pennsylvania.

BILLYGOAT AND BUFFALO IN BUTT-OR-TOSS FIGHT

Buff's Footwork is Decidedly "Punk" but His Clever Generalship Wins the Bout.

Omaha, Neb.—A fight between a billygoat and a bull buffalo, spectacular in every particular, was staged extemporaneously at Riverview Park zoo in Omaha. No, it was not advertised. If it had been, thousands of seats could have been sold. It was spontaneous and unexpected. No one saw it except the keeper of the park.

A dozen buffalo are kept in the zoo. Among them is a particularly vicious bull that is kept alone in a pen because of his viciousness. During the night some one put a goat in his pen. It has not yet been learned whose goat it was or who put him in there.

When day dawned the buffalo saw him, and the goat saw the buffalo. About the same time the keeper came along and saw both of them.

When the buffalo arose from his bed shook his mane, snorted a few times, and began to paw the ground, the Billy made a grand rush at him. With customary billy goat tactics he leaped clear of the ground when within six feet of the bull and struck the big buffalo amidship like a thirteen inch shell.

This bumped a single groan from the buffalo, and when he swung quickly to attack the goat Billy had backed 30 feet away for another spring.

Again he flew into the short ribs of the furious buffalo, until he had him fairly bellowing with rage and pain.

Then he missed his calculation. The buffalo was learning his tactics. He was watching for him and measuring distance. This time the bull lowered his head and turned just in time to catch Billy on his horns. He gave him a vigorous toss and sent him fully thirty feet in the air where he got tangled in the branches of a tree and had to be rescued by the keeper and his helpers later in the day.

Billy's digestive apparatus is said to have survived the shock in good shape but his feelings have been ruffled ever since.

ALLIES HALTED, BERLIN

Sofia Dispatches Say Serbians, After Minor Successes, Were Driven Back.

Berlin, Sept. 15.—The new ailed offensive in Macedonia has been completely halted, according to Sofia dispatches. Large British forces that attempted to advance in the region of Sres were repulsed, suffering heavy losses. The British were forced to relinquish ground temporarily occupied and are now in retreat.

Repeated attacks by French and Italian troops have been easily repulsed. The Serbians on the Bulgarian right wing, after a few temporary successes, have been pushed back to their former positions, being unable to withstand Bulgarian counter attacks.

PRINCESS THEATRE

Tonight the Princess will present Crane Wilbur and Mae Gaston in "For Her Good Name."

A battle of wits between a society gambler and a criminal investigator, with a woman's reputation at stake furnishes the theme for the latest Centaur-Mutual feature to be released under the title "For Her Good Name."

In this intensely dramatic offering dealing with adventure, love and mystery, gripping from the start and working up to an unexpected and unusual ending, Crane Wilbur is presented as the author-star. The action of the piece is true to life and the subject dealt with most convincing and is presented in the most convincing manner.

Also the following comedies will be produced, "The Gink Lands Again," a Beauty, and "Stung By June, a Vagabond."

Mr. and Mrs. Henry D. Dement, who have been spending the summer in South Dakota, have returned to Wilmette for the winter.

"THE STORE OF QUALITY"

Quality First

A \$56,000,000 "RUN" ON A CHALMERS CAR

"Run"—is the word. It's like a run on a bank. Only it's a run on a car—a Chalmers car. It seems endless. The people want more.

And so more must be built for them—20,000 more.

You remember a while ago that six hundred men took one look at this new car and bought \$22,000,000 worth in forty very brief minutes. They were the Chalmers Dealers.

Now they insist that more of the same kind be built—more of the 3400 r. p. m. Chalmers.

So the Chalmers executives have put through a factory work order for 20,000 more of them.

They built and delivered, in six months, 18,000. That was all they intended to build for an entire year. That completed their part of the \$22,000,000 affair.

We got them to build another 10,000. We thought that would be enough to last through the fall. But no, the 10,000 were quickly taken up during the summer months.

So they are going to build 20,000 more. That means, all told, 48,000 cars—or \$56,000,000 worth of these remarkable 3400 r. p. m. Chalmers.

So you see why I use the word "run." The people who know good cars—like Emerson's wise saying about the man who makes a better mouse trap, etc., will find a beaten path to his door, even though he live in the woods—they create this ever-increasing desire to own a Chalmers.

They have sought quality—not price. We seldom have people ask us the price of this car. When we tell

them \$1090 Detroit, they are very much taken back. We get little of the "price" trade. Most of those who come to us have passed that era in car buying.

They want quality. And they know pretty well where to look for it. They look for it in the sound of the engine, in the action of the clutch, in the action of the steering apparatus, in the sound of the differential.

They examine the radiator, try the brakes, observe the kind of glass in the windshield, note the kind of material in the top, and then poke around into the corners of the body.

That much done, they get into the car and try her out. For they are smart enough to know that the biggest result of quality is performance.

That's what usually brings us the sale. For performance is the car's middle name. She's got amazing acceleration—so lively and full of spunk.

And then she climbs hills so quickly and hugs the road so well at a rapid clip.

And, best of all, she handles so easily. She's as obedient as any creature man ever made.

Once you try her you, too, will understand the "run" on her. It's a thing difficult to explain, but three editions of a car in a year's time is something to ponder over.

We have it direct by telegraph that Chalmers will continue to make these 3400 r. p. m.'s next season. There's no time limit set. As soon as these last 20,000 are built and out of the way there will probably be more.

So you're dead safe in getting a model of a car that has in no way reached its peak of popularity.

SPINSTERS HAVE CITY IN KANSAS

VICTORIA MOST UNIQUE TOWN IN SUNFLOWER STATE; MEN BARRED

PROTECTS INTERESTS OF OLD MAIDS

Disappointed in Matrimony Women Are Now Tilling Soil and Governing Town

Dodge City, Kas.—A new town is being born in Southwestern Kansas. Its name is Victoria City and it is the most unique city in the state. It is a town of old maids—the Kansas headquarters for spinsters—the place from which men are barred, except they are willing to give up their prerogatives and allow the women to rule without question.

The founding of Victoria City is the outgrowth of the organization of the Kansas City Queen Victoria Club, a spinster's union, by Miss Georgia Hook of Sabetha. The club was launched to protect the interests of old maids. At first it was a local organization, but the idea spread and other clubs were formed throughout the state. It now has a membership of several hundred women, all unmarried.

In the fertile brain of the president, Miss Georgia Hook, was born the idea of a city for spinsters, where they could enact such laws as they desired and live according to their views, without running afoul of the ideas of other individuals who believed in babies and home life.

The idea came to Miss Hook coincidentally with the announcement from the Federal Government that there were about 20,000 acres of land in Kansas, especially in the Southwest, which was open to homestead entry. Miss Hook investigated. She went to Dodge City and consulted the Land Office Records.

Convinced that her idea was feasible by what she discovered, she consulted other members of the Queen Victoria Club in various parts of the State. The idea took hold of them. Fifty spinsters agreed to enter the scheme, give up their settled modes of life and invade the frontier in the interests of the cause.

Into the Southwest they went. Land was secured, and in the center of the new settlement was laid out Victoria City. It is in Ford county, not far from Dodge City. The town is only in its infancy yet. There are a few scattered houses built, but for the most part the women are waiting for a clear title to their land before they actually begin the final development of their city.

But while the actual building of the town is progressing slowly because of the necessary delay in proving up on the land, the growth of the town along governmental lines is almost completed. And it is in a governmental way that the town has achieved its distinction of being the most unique city in the state.

Miss Hook is the mayor. She has a city council composed of Miss Mabelle Morton, Miss Sylvia Cawker, Miss Mildred Minter and Miss Elizabeth Whitling. These officers were elected by vote of the original fifty members of townsite company.

As the original idea of a spinster city was Miss Hook's idea, so the Constitution of Victoria City also owes much to her ingenuity. In the prelude of the constitution the city is described as a place where women who have been so unfortunate as to have failed in their matrimonial ambitions, can seek solace by industry in agriculture and in the development of a better form of government which shall be free from the petty rules of restraints of the average community.

The constitution limits suffrage on all questions to women. No man, although they are allowed to live in the community will be allowed a voice in the administration of affairs.

Men are not barred. In fact the constitution provides that it is the duty of each member of the community to use whatever powers are at her command to induce a man to marry her and conduct the more rigorous duties of drawing from the soil a livelihood. A special department of city government under direction of a Miss Mildred Minter, has been created, whose purpose is to assist each member in becoming acquainted with a man with the idea that the romance thus begun may eventually flower into matrimony.

But one exception is made to the rule that man has no voice in the conduct of affairs. The constitution provides that a pastor is to be secured and that he shall be given every right he would enjoy if living in any other community in the state. It was felt that the presence of a minister was necessary, not only to guard the religious life of the citizens, but to be present constantly that he might perform a marriage ceremony without undue delay, while both parties were in the notion.

Probably a sympathetic tear comes as near being a panacea for all feminine troubles as anything on the market.

One can't always measure a good time by the cost.

RUSSIANS AND JAPS ASSURE OPEN DOOR

Notes to United States Said to Be Satisfactory.

Washington, Sept. 16.—Both Japan and Russia have given the United States formal assurances that the new Russo-Japanese treaty does not appear to affect the treaties of 1907 and 1910, in which those nations pledged themselves to maintain the integrity of China and the open door policy.

The assurances were given to Ambassador Guthrie at Tokyo and Francis at Petrograd, in response to inquiries. The state department received from Mr. Guthrie a note on the subject addressed to him by the Japanese foreign office stating in unequivocal terms that Japan had not for a moment entertained an intention of departing from these policies.

Department officials let it be known that the statements were entirely satisfactory, and that inquiries regarding the new treaty, over which they had been considerably perturbed, probably would not be pressed further.

MARSHALL KNOWS

HE IS NOMINATED

Vice Presidential Candidate Officially Notified.

Indianapolis, Ind., Sept. 15.—Vice-President Thomas R. Marshall was officially informed that he again is Woodrow Wilson's running mate in the national campaign. The city was filled with Democrats from all sections of the state, the enthusiastic partisans endeavoring to outshine the Republican rally at the time Charles Warren Fairbanks was officially told he is the opponent of his neighbor and friend for vice-president.

National Chairman Vance McCormick and members of the national notification committee, of which Evans Woolen, a banker of this city, is chairman, were guests at a reception at the Indiana Democratic club in the afternoon. Proceeding the notification at Tamlinson hall, a torchlight parade was staged.

Former Governor Martin Glynn, of New York delivered notification speech. J. A. Adair, candidate for governor, was chairman of the reception committee, and Senators Kern and Taggart were heads of the entertainment committee. Governor Ralston was the temporary chairman of the notification meeting.

Vice-President Marshall likely will make several speeches in Indiana before starting on a tour laid out by the national committee.

CORROBORATION

Of Interest to Dixon Readers For months Dixon citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Dixon residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Dixon reader.

B. A. Worley, blacksmith, Peoria Ave., Dixon, says: "The action of my kidneys was irregular and annoying, and my back ached after using Doan's Kidney Pills, the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

OVER TWO YEARS LATER Mr. Worley said: "Whenever my back gets lame and sore and I need a kidney medicine, I use Doan's Kidney Pills. They give me relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Worley has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Is Oldest Circus Man.
Rochelle, Ill., Sept. 15.—Joseph M. May ("Uncle Si"), the oldest living circus man, lives here. He is ninety-one years old, and fifty years ago owned a small one-ring circus that traveled by wagon. Recently he attended alone, an exhibition given by a large circus here.

MAKE RENT BUY A HOME--Wage Earner's Chance

ON next Saturday, Sept. 16th, at 1:30 p. m., on the premises, I will sell at Public Auction to the highest and best bidder, a neat, comfortable six-room cottage which I have just placed in good condition and repair—a nice, attractive home for the lucky buyer.

Terms:—One hundred dollars cash. (\$25.00 on day of sale and remainder within the following week.) Balance payable in monthly instalments of \$7.00, same as rent, with 5 per cent interest on deferred payments. As inducement for larger down payment \$25.00 will be deducted from purchase price for every \$100.00 added to cash payment, and in same ratio for less sums. Possession given on completion of cash payment.

The property is the newly painted slate and white cottage about two blocks west of wagon factory in West End Addition known as the May place. New cistern. Best drinking water in the city in wells near by.

Sale absolute; doubtless a bargain for somebody. Expect it to go much below value. Why not pay for a home in a few years with your rent instead of going on as you have been doing with nothing to show at the end that you can call your own. No one is more entitled to a home than you are. Go about it and get one, and be independent. Here is your opportunity to purchase at your own price. Lot 50 x 140 with alley in the rear.
